*"I've felt intrinsically connected to the ocean for all of my life. Everything about nature always brings me to my happy place. At the beach, the crashing of the water, the rippling and intensity of the waves, the softness of the sand, and the strength and brightness penetrating heat from the sun, and the moodiness of the clouds even when it rains is fascinating! No matter the mood of nature, I appreciate and love it all! I felt inspired to create The SALT Collection to channel the same emotions I have when staring off at the ocean with the sand between my toes. My vision is for each piece to mimic these feelings to where it is almost as if you are there experiencing through my eyes the wondrous powers of the sky, the taste, and smell of the salty air, and admire the strength and comfort of the sea." - Paul Christopher*

### **About the artist:**

**Paul Christopher** is a soulful artist who refuses to stick to one medium; using every color imaginable. With brushstrokes and mixed media accents of gold leaf and metallic pigments - living flowers he could not let go of, and pieces of broken glass – he builds castles from reflections and predictions that culminate in impactful paintings. A sort of Renaissance man; beyond the canvas, Paul's love and passion extend to his work in real estate, construction, and building design; and poetry and blogging on fashion, beauty, and lifestyle.

### **About the gallery:**

Avra Art Gallery was founded with the mission and passion of bringing international art to

individuals that would otherwise have limited or no access to it. Their staff has traveled extensively to numerous countries in pursuit of new and established artists who they, in turn, are committed to creating opportunities for. The gallery has showrooms in Athens, Greece; Margate City, New Jersey; and Philadelphia, Pennsylvania.
